HARVEY MILK 1930-1978
Harvey Milk made history in 1977 when he became the first openly-gay individual elected to office in the state of California. He would serve just eleven months on the San Francisco Board of Supervisors before his tragic and untimely death on November 27, 1978.

SFO's Harvey B. Milk Terminal Opening Exhibition

by Arnab Chatterjee | Jul 29, 2019 | Cultural Heritage News

The city of San Francisco was one of the earliest battlegrounds in the fight for gay rights in America, and few names are more synonymous with the gay rights movement than Harvey Milk. The first openly gay man elected to public office, Milk was not just an iconic...

DT Digitization Certification 101 Online Class is Now Available

by Patrick McDonough | Jul 18, 2019 | Cultural Heritage News

With the launch earlier this year of our DT Digitization Certification program, we announced the first two levels of training—the 101: Intro to Modern Digitization class, and the 201: Operator Training class. Up to this point the 101 was only available to those that...

Congratulations to Our First Class of DT Digitization Certification Graduates

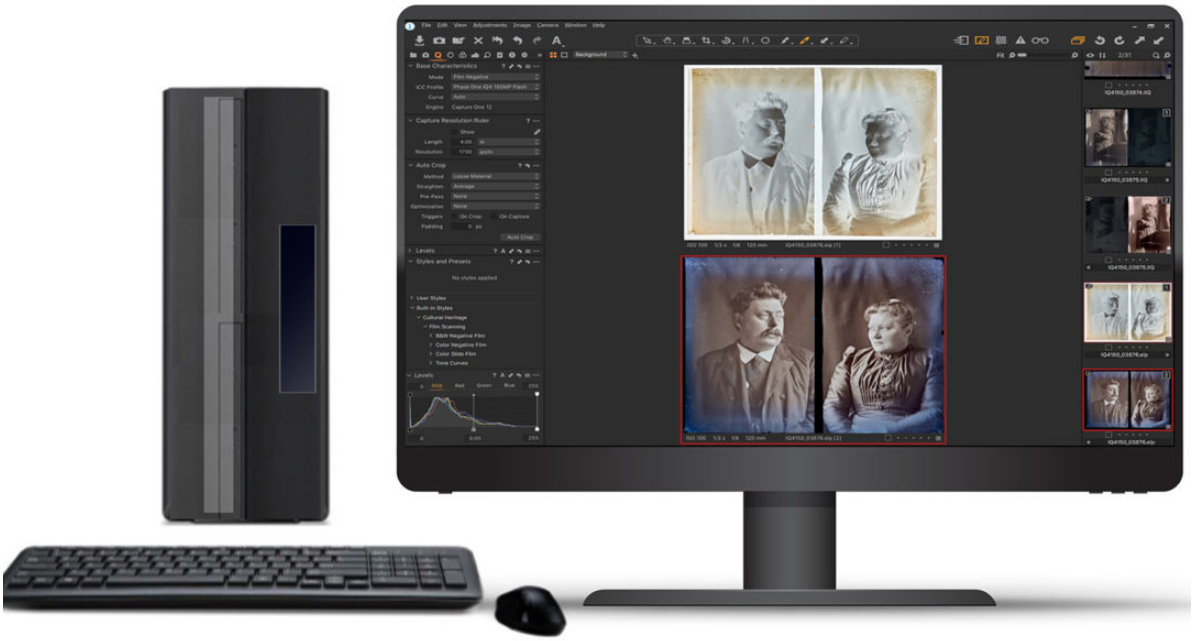
by Patrick McDonough | Jul 11, 2019 | DT CulturalHeritage, Training

One of our core missions at DT Heritage is to be a knowledge resource for the Cultural Heritage digitization community, helping to foster the spread of information and best practices in an industry that too often relies on individuals figuring out techniques and...

The DT Titan – The Industry's First 40″ x 60″ Digitization System

by Patrick McDonough | Jun 27, 2019 | Cultural Heritage News

Oversized Material Digitization System Digitizing large material presents a unique challenge to most typical copy stands. From historical maps and oversized artworks, to textiles and elephant folios, finding a surface to support the subject, as well as getting the...



Announcing Capture One CH 12.1 for Windows

by Patrick McDonough | Jun 20, 2019 | Cultural Heritage News

Capture One CH is coming to the Windows platform! Most of our users are using Mac computers, so it was logical that we would start the journey of Capture One Cultural Heritage (C1 CH) on the Mac platform. But as DT and Phase One solutions have reached a broader and...

Announcing the New Phase One iXG 150 MP Cultural Heritage Camera

by Patrick McDonough | Jun 20, 2019 | Cultural Heritage News

We're excited to reveal that Phase One has announced their latest Cultural Heritage camera system – the iXG 150! DT Heritage systems represent a new kind of digitization hardware. They meld the speed and quality of modern instant-capture digitization with...

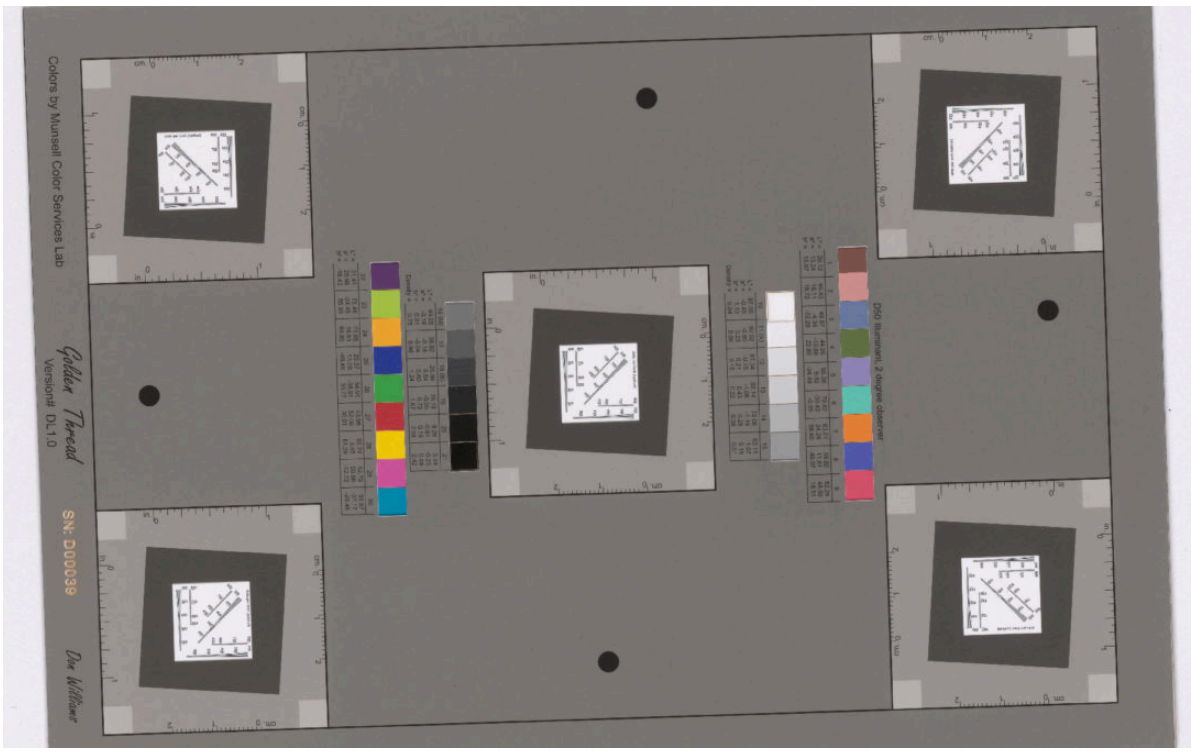
Which Bound Material Digitization System is Best for Me?

by Patrick McDonough | May 16, 2019 | Cultural Heritage News, Products

When investing in a premier piece of digitization equipment, you want to make sure that you've picked an appropriate system for your particular collection, environment, and staff. One of the core values at DT Heritage is our mission to provide the highest level of...



Are You Sure You're FADGI-Compliant?

by Patrick McDonough | Apr 30, 2019 | Color Calibration

Why it's time to stop using delt.ae For years, the delt.ae website has been the go-to page for spot-checking color calibration and FADGI compliance. The convenience of being able to upload a file and have it automatically identify your target, check it for color,...

Announcing DT's New Digitization Certification Program

by Patrick McDonough | Apr 24, 2019 | Cultural Heritage News

Digitization has undergone a rapid and profound transformation in the past two decades. Legacy systems built on scanning have been replaced with modern instant capture systems. Direct-to-TIFF workflows are being replaced by raw workflows. Institutions are adopting...
